

Women's Vision Quest

July 30-August 6, 2022 – Primitive Camp, NJ

There is a beauty and wisdom in the energy and power that women carry. At this time, all across Mother Earth, women are joining together and strengthening this Medicine to bring it more fully into the world. Gathering together, gaining clarity, purpose, and depth to our Earthwalk as women.

The Vision Quest is a powerful experience, bringing us to the center of who we are and the unique gifts we can bring to the world. It is a time-honored ceremony connecting us deeply to the Creator and the Earth. Coming together while undertaking the sacred Vision Quest is a very synergistic and impactful way to make a difference in our lives and in the world at a time when change, and women of Vision, are very needed.

The Quest is four days and four nights alone in nature, leaving behind all distractions so we can focus deeply on our journey. This Vision Quest is set up in the tradition passed down by Grandfather Stalking Wolf. It will be preceded by preparation and guidance, and followed by a time of reintegration and reflection. You do not need previous experience with the Vision Quest to participate, just a longing of your heart to embark on this remarkable journey.

Come join us in the beautiful and powerful primitive camp of the Pine Barrens in New Jersey where so many Visions have been born. Both an instant and an eternity, it can touch your heart deeply and change your life forever.

“The Vision Quest provides all the answers to life, to spirit....”

—Grandfather Stalking Wolf

“I have been on several Vision Quests and the best for me personally is that run by Elizabeth. A small group of women makes the camaraderie close and personal and the loving guidance from Elizabeth and the other protectors is amazing. This is the Vision Quest I will be attending annually. The power of it cannot be overstated.” –Janice Christie

“My Vision Quest with Elizabeth was one of the most remarkable, empowering, and growthful experiences of my life. The gentle and insightful approach skillfully held a safe and expansive space for us and the expert guidance facilitated my having the most powerful experience available to me.” –Romana Cretnik

“If anyone is thinking about going on this journey, don't hesitate. Do it. Trust the protectors. Trust the process. Trust yourself.” –Kristin Armstrong
